THERE IS A REASON

Why it pays to advertise in the SEMI-WEEKLY BEE:

It reaches a large number of wage earners who take no other paper.

It has an almost exclusive circulation in a community where \$50,000.00 in money is paid out each month.

It is read by hundreds of people who buy what they want and who have money to pay for what they buy.

The only way to get your advertisement before the people of Earlington, Mortons Gap, St. Charles and immediate vicinity is through the medium of the Earlington Bee. A hint to the wise is sufficient.

Locomotive Blasts

A work train will be placed on the cut-off this week for the purpose of facilitating matters.

Rapid work is being planned for the section men who will lay steel on the cut-off, and it will be pushed to completion with all haste when the laying of steel commences.

In the meantime Supervisor C. M. Henry, an his section foremen are collecting material and getting their men on the ground so operations can be rushed when track-laying begins.

The new yard under construction by the L. & N. railroad company, near Atkinson Junction, north of Madisonville, is practically completed and is being used by trainmen. All of the yard tracts have been laid and two long passing tracks are finished.

It is believed that all of the steel will be laid on the cut-off by December 1, unless unforeseen conditions arise that will cause a big delay. If the track is laid by that time, trains will be in operation over the cut-off before the first of the year.

Contractors have made excellent progress at Mortons Gap, and south of that place between Mortons Gap and South Diamond mine, where a steam shovel has been working, the earth has been removed to within a few feet of the main track. This part of the revised line soon be ready for laying of the steel.

Steel has been laid for one-fourth of a mile on the cut-off north of Madisonville. There has not been any steel laid at Mortons Gap to amount to anything. A great deal of steel has been unloaded for the cut-off north of this city and several trains have passed over the Division with almost a solid train load of steel for the cut-off.

Eugene Carneal, formerly on the Henderson division as freight conductor, but who has been conductor on a passenger train on the Mexican National Railways in Old Mexico for several years, has been promoted to a position similar to superintendent of a railroad division in the United States, at a salary of \$300 per month. His Headquarters are in Montana, Mex.

Mr. Carneal is well known in local railroad circles and has a large number of friends who are pleased to learn of his advancement in his chosen avocation. He has purchased property at San Antonio, Tex., since leaving Kentucky and is doing well in Old Mexico.

Beware of Ointments for Catarrh that Contain Mercury

Such articles should never be used except on the prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, O., by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price 25c per bottle. The Luxal Bros. tent show was here Wednesday and Thursday nights and the performance was good for a small show. They have a troupe of well trained dogs and horses and the trapeze performance was above the ordinary. The supposed music made by the trap drum during the performance was horrible and should be eliminated as it grates on the nerves and is calculated to give a nervous prostration. The last act of the performance is a fight between a huge grizzly bear and a pack of ferocious dogs. The bear is slightly handicapped in this fight being chained to the pole while the dogs have free access to his headquarters. The show was well patronized, every reserved seat in the house being filled and quite a number were compelled to stand during the performance. They go from here to Dawson Springs and thence to St. Charles.
